

# Sprint 3 Report

## SlugSync

Due: 5/21/24

### Actions to keep doing:

- Keep having longer meetings on Friday to go more in depth on the details of the project
- Keep our current consistent schedule of meetings
- Set aside time in weekly meetings for learning/asking questions about the project.
- Keep attending TA meetings in person whenever possible

### Actions to stop doing:

- Slacking on test and code coverage
- Submitting merge requests on the day the sprint is due

### Actions to start doing:

- Give enough time to test code and review merge requests. Set a deadline to get MRs so they can be reviewed and merged before they get merged.
- More team members could participate in the code review process so that all team members understand updates in the codebase.
- Push to the gitlab repository more frequently (many smaller commits).

### Work completed:

- Commenting on goals (5)
- Sort and Filter (3)
- Update a goal (5)
- Create goal start date (3)
- Search functionality (2)
- User Dashboard - leftover (2)
- Update a goal - leftover (2)
- User profile - leftover (2)

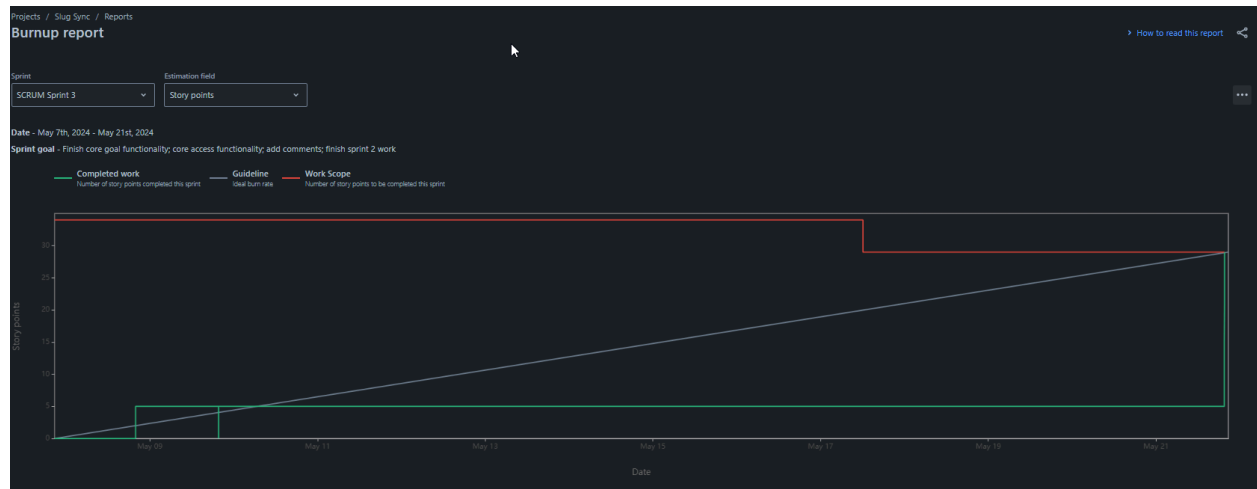

### Not completed:

- Few loose ends that still need to be tied up (mostly regarding testing)

### Work completion rate:

- 95%

## Burnup chart:

Profile page was carried over to sprint 4.
